Personal Project

HoopTrust Seoul, Korea
Jul 2026 - Present

RESEARCH EXPERIENCE

Ivy League Environmental Politics Internship HOBY Youth Korea, South Korea
Independent Researcher under Professor Jeff D. Colgan *Jan 2026*

- Authored the research paper "Asymmetric Critical Junctures: The Political Economy of the COVID-19 Energy Demand Shock," analyzing the asymmetric impacts of the 2020 demand contraction on global energy markets.
- Investigated the divergent climate trajectories of major energy actors, concluding that the crisis prompted defensive adaptation in producer economies like Russia and Saudi Arabia

Independent Research Seoul, South Korea
Independent Researcher under Professor Kit Hickey *Summer 2025*

- Authored a paper on the impact of celebrity-product fit on endorsement success
- MIT, Kit Hickey
- Co-authored the research paper "The Power of Mismatch: How Incongruous Pairings Drive Ad Effectiveness," investigating the traditional "Fit Hypothesis" versus strategic incongruity in celebrity marketing.
- Designed and executed a mixed-methods study involving 32 participants to evaluate six real-world celebrity endorsement pairings to measure brand recall, image improvement, and shifts in consumer interest.
- Incorporated thematic analysis to identify five core drivers of endorsement success: Credibility & Social Proof, Emotional & Creative Appeal, Involvement & Personal Relevance, Mismatch & Tension, and Product-Celebrity Congruence.
- Concluded that while congruent pairings build long-term trust through expertise, strategic low-fit pairings can successfully generate high market engagement by leveraging humor, novelty, and creative surprise.

The Power of Mismatch: How Incongruous Pairings Drive Ad Effectiveness

Independent 2차
Extension Program

- Studied the foundational processes of building and scaling startup businesses under the mentorship of Dr. Kit Hickey

- Analyzed a comprehensive case study of Dr. Hickey's enterprise, Ministry of Supply, to bridge entrepreneurial theory with real-world application.
- Formulated an original startup business plan by applying acquired knowledge of market analysis, business development, and entrepreneurial strategy.

Global Youth Academic Research Enrichment Program HOBY Youth Korea, South Korea
Participant *Aug 2026*
- Writing a research paper analyzing the factors driving the influencer-equity model's success in product sales.
- 논문제목 정해지면 써줘.

EXTRACURRICULAR ACTIVITIES

Blue Ocean High School Entrepreneur Pitch Competition Blue Ocean Competition
Participant *Feb 2026*
- Top 500 **Blue Ocean High School Entrepreneur Pitch Competition**
- Conceptualized and pitched HoopTrust, the global, AI-verified recruitment pipeline designed to connect international student-athletes with U.S. college scholarships.
- Designed a proprietary computer vision engine that acts as a 24/7 digital scout, extracting over 15 verified performance metrics from raw footage to ensure data credibility and eliminate human bias.
- Developed a scalable, disruptive business model targeting 350 million non-customers, utilizing Edge AI processing to reduce server overhead by 60% and offer an accessible $29/month subscription.
